PROJECTS

CampusFix AI — Intelligent Campus Problem Management Portal | Lead Full Stack Developer
Technologies / Link: React.js, TypeScript, Tailwind CSS, Supabase, PostgreSQL | campus-fix-woad.vercel.app
- Built an institutional defect-reporting portal with database-backed request workflows and location-based triage routing.
- Implemented reporter verification to help prevent false ticket closures and support accountable maintenance handling.

AngadiFlow — Restaurant Operating & Ordering Platform | Founder & Lead Architect
Technologies / Link: React, Node.js, Kitchen Display System (KDS), Cashfree UPI | angadiflow.in
- Designed a QR-based, zero-download table-ordering experience with live floor tracking and fast menu access.
- Integrated a kitchen display workflow, UPI payments, and daily sales-ledger analytics.

EXPERIENCE

Parambariyam Cashews — E-Commerce Brand Web Application | Full Stack Developer
Technologies / Link: React.js, JavaScript, Tailwind CSS, Vercel | parambariyam-cashews.vercel.app
- Developed a premium cashew storefront with responsive product catalog and cart-navigation workflows.
- Worked on product-data presentation and mobile-friendly shopping experiences to support customer inquiries.

Travroidd — Travel Booking Website | Web Developer
Technologies / Link: React/Vite, Supabase, Google OAuth, Vercel | travroidd.in
- Built a travel-focused website experience with responsive layouts and booking-oriented user flows.
- Configured Supabase integration and Google OAuth setup, and worked on Vercel deployment and custom-domain configuration.
- Improved website discoverability and performance through SEO and page-structure refinements.

DevOps Virtual Intern — CodeAlpha (August 2026)
- Worked with Docker-based environments and build/deployment pipeline configuration.

Artificial Intelligence Intern — SYNTECXHUB (August–September 2026)
- Developed Python computer-vision utilities and machine-learning workflows for object classification and feature extraction.

UI/UX Design & Full Stack Intern — Arttifai Tech (July 2025)
- Created responsive UI designs, Figma prototypes, and React interface components.

SDLC Workshop Trainee — Errors2Experts (E2E) (August 2026)
- Covered software design, testing strategies, and deployment pipeline concepts.
